Subject Index

Actin, platelet, induced by diamide, changes in the distribution and organization of, and its functional consequences (SPANGENBERG *et al*), 443
Adrenaline infusion, the effect of, on the splenic blood flow and intrasplenic platelet kinetics (WADENVIK & KUTTI), 187
Anaemia, aplastic, no evidence for gamma-interferon mediated haematopoietic inhibition by T cells in: an observation in the course of immunosuppressive therapy (HANADA *et al*), 123
Anaemia, megaloblastic, ring neutrophils in (CRAIG), 247
Anaemias, hypoplastic, inhibition by interleukin-1 of the action of erythropoietin on erythroid precursors and its possible role in the pathogenesis of (SCHOOLEY *et al*), 11
Androgen therapy in haemodialysis patients: kinetic studies of erythropoiesis and red blood cell survival (NAJEAN), 494
Antibody Ki-67, monoclonal, as a proliferation marker (NEUBAUER & HUHN), 495
Anticoagulants, familial lupus (MACKIE *et al*), 359
Arabinosyl cytosine, low dose, cell kinetic effect of (BACCARANI *et al*), 33

Basophils, human, the purification of: their immunophenotype and cytochemistry (BODGER & NEWTON), 281
B-CLL with surface IgMκ phenotype (CHAPMAN *et al*), 375
Bleeding disorder, familial, associated with deficiencies in platelet signal processing and glycoproteins (HOLMSEN *et al*), 335
Book reviews
Leukaemia, 254
Leukocyte Typing II, 122
Multiple Myeloma and Other Paraproteinemias, 122
Progress in Transfusion Medicine, Volume II, 254

Chagas' disease, human, neutrophils with ring-shaped nuclei in (CABRAL), 118
Chromosome 12p13, abnormalities of, and malignant proliferation of eosinophils: a nonrandom association (KEENE *et al*), 25
Chromosome 22 breakpoints in adult Philadelphia-positive acute lymphoblastic leukaemia, molecular analysis of (KURZROCK *et al*), 55
Clotting factor levels and the risk of diffuse microvascular bleeding in the massively transfused patient (CIAVARELLA *et al*), 365
Colony-stimulating factor (CSF-1) utilization, receptor-mediated, delineation of, and cell production by precursors of mononuclear phagocytic series at various stages of differentiation (CHEN *et al*), 381
Congenital dyserythropoietic anaemia type II (HEMPAS): characterization of aberrant intracellular organelles by immunogold electron microscopy (FUKUDA *et al*), 95
Cryopreservation disturbs stimulus–response coupling in a platelet subpopulation (DULLEMOND-WESTLAND *et al*), 325

Eosinophils, malignant proliferation of, and abnormalities of chromosome 12p13: a nonrandom association (KEENE *et al*), 25
Erythroid progenitors, human (BFU-E), cloning of, in the absence of fetal bovine serum (MIGLIACCIO *et al*), 129
Erythropoiesis and anaemia in heterozygous β-thalassaemia (FESSAS & TASSIOPOULOS), 245
Erythropoietin, inhibition by interleukin-1 of the action of, on erythroid precursors and its possible role in the pathogenesis of hypopulastic anaemias (SCHOOLEY *et al*), 11

Factor XIII: a marker of mono- and megakaryocytopoiesis (ÁDÁNY *et al*), 167

G6PD variants in the Ferrara area, red-cell GSH regeneration and glutathione reductase activity in (ANDERSON *et al*), 459

Glycosphingolipids in sera of patients with idiopathic thrombocytopenic purpura, antibodies against (VAN VLIET *et al*), 103
Graft-versus-host disease, acute, risk factors for (GALE *et al*), 397
Grey platelet syndrome, abnormal phosphoinositide metabolism and protein phosphorylation in platelets in a patient with (RENDU *et al*), 199
GVHD, chronic, high levels of anti-cytoskeleton autoantibodies are frequently associated with (DIGHIERO *et al*), 301
Haematological disorders, molecular diagnosis of, using DNA from stored bone marrow slides (FEY *et al*), 489
Haematopoietic malignancies, human, flow cytochemical patterns of white blood cells in (BEHRENDT *et al*), 495
Haemoglobin variant, a new unstable: Hb Shanghai [β131(H9)Gln→Pro] found in China (ZENG *et al*), 221.
Haemophilia B, determination of factor IX allotypes for carrier identification in (WALLMARK *et al*), 427
Hb A_2 β-thalassaemia determinant, a normal, in a Sardinian family, molecular characterization of (OGGIANO *et al*), 225
Heparins, conventional unfractionated, comparison of the platelet pro-aggregatory effect of, and a low molecular weight heparin fraction (CY 222) (BARRADAS *et al*), 451
Hepatitis, non-A, non-B, reduced reduced risk of, after a first exposure to 'wet heated' factor VIII concentrate (KERNOFF *et al*), 207
HLA and platelet-specific antibodies, disappearance of, in acute leukaemia patients alloimmunized by multiple transfusions (MURPHY *et al*), 255
Human immunodeficiency (HIV) infection, autoimmunity against blood cells in (VAN DER LELIE *et al*), 109

Idiopathic thrombocytopenic purpura, antibodies against glycosphingolipids in sera of patients with (VAN VLIET *et al*), 103
Idiopathic thrombocytopenic purpura, platelets in, are increased in size but are of normal density (ILLES *et al*), 173
Inflammation in bone marrow, does histologic grading of, predict the response of aplastic anaemia patients to antithymocyte globulin therapy? (SALE *et al*), 255
Interleukin-1, inhibition of the action of erythropoietin on erythroid precursors and its possible role in the pathogenesis of hypoplastic anaemias (SCHOOLEY *et al*), 11
Interleukin 2 enhances cytotoxic cell function *in vitro* after T-cell depleted marrow transplantation (LEGER *et al*), 273
Interleukin-2 receptor, soluble, in haematological disorders (PIZZOLO *et al*), 377
ITP, chronic, autoantibodies against platelet GPIIb/IIIa in, react with different epitopes (TSUBAKIO *et al*), 345

Leukaemia, acute, ectopic production of calcitonin and hypocalcaemia in (RICO *et al*), 252
Leukaemia, acute myeloblastic, *de novo*, a new case of, with 9q interstitial deletion as the sole chromosomal abnormality (SMADJA *et al*), 494
Leukaemias, acute myeloid, annotations concerning the correlation of the immuno-phenotypes of leukaemic cells in, with the FAB classification (KEMNITZ *et al*), 120
Leukaemia, acute myeloid, intensive remission induction and consolidation therapy in patients with (FERRANT *et al*), 375
Leukaemia, adult Philadelphia-positive acute lymphoblastic, molecular analysis of chromosome 22 breakpoints in (KURZROCK *et al*), 55
Leukaemia, chronic myelogenous, studies on cells from patients with: development of the phagocytic and cidal capacity during maturation of myeloid cells (SEGEL *et al*), 3
Leukaemia, chronic myeloid, with stable Ph^1 mosaicism, cytogenetic study of myeloid and erythroid colonies in (CRAMER *et al*), 51
Leukaemias, chronic; flow cytochemical patterns of white blood cells in human haematopoietic malignancies. II (DREWINKO *et al*), 157
Leukaemia, detection of the Tn antigen in, using monoclonal anti-Tn antibody and immunohistochemistry (ROXBY *et al*), 153
Leukaemia, hairy cell, due to chronic exposure to benzene (NG *et al*), 116
Leukaemia, hairy cell, is male predominance (4/1) in, related to occupational exposure to ionizing radiation, benzene and other solvents? (FLANDRIN & COLLADO), 119
Leukaemia, hybrid acute (GONZALEZ *et al*), 117
Leukaemia, large granular lymphocyte, evaluation of splenectomy in (LOUGHRAN *et al*), 135
Leukaemia, patients with, previously transfused with blood products from family members, bone marrow transplantation in (Ho *et al*), 67
Leukaemia, Philadelphia chromosomes positive granulocytic, triple chimaerism after allogeneic bone marrow transplantation for (BECHER *et al*), 373
Leukaemia, Philadelphia-positive chronic myelogenous, at diagnosis, histological and cytological heterogeneity of bone marrow in (LORAND-METZE *et al*), 45
Leukaemia, Ph^1 chromosome positive acute lymphoblastic, multiple molecular abnormalities in (DREAZEN *et al*), 319
Leukaemia, subacute myelomonocytic, with skin infiltration, aggressive chemotherapy in the treatment of (PAGANO *et al*), 246
Lymphadenopathy/lymphogranulomatosis X, angioimmunoblastic, diagnostic and prognostic value of monoclonal antibodies in immunophenotyping of (KNECHT *et al*), 19
Lymphoma, malignant, HLA class II antigen associated invariant chain gene expression in (GONDO *et al*), 413
Lymphoproliferative disorders, spectrum and frequency of autoimmune derangements in: analysis of 637 cases and comparison with myeloproliferative diseases (DÜHRSEN *et al*), 235

Myeloblasts, leukaemic, differentiation of (REID *et al*), 251
Myelodysplastic syndromes, erythroid and myeloid maturation patterns related to progenitor assessment in (DÖRMER *et al*), 61
Myelodysplastic syndromes: evolution of overt leukaemia by one or several steps of transformation (DÖRMER *et al*), 141
Myelodysplastic syndromes, mechanisms and prognostic value of cell kinetics in (DÖRMER *et al*), 147
Myeloid cells, development of the phagocytic and cidal capacity during maturation of: studies on cells from patients with chronic myelogenous leukaemia (SEGEL *et al*), 3
Myeloid progenitors from the bone marrow of patients with vitamin D resistant rickets (type II) fail to respond to $1,25(OH)_2D_3$ (NAGLER *et al*), 267
Myeloid recovery after autologous bone marrow transplantation, use of circulating stem cells to accelerate (BELL *et al*), 252
Myeloma, high risk, high dose melphalan and autologous bone marrow transplantation in (HAROUSSEAU *et al*), 493
Myeloma, multiple: the relationship between CALLA (CD10) positive lymphocytes in the peripheral blood and light chain isotype suppression (WEARNE *et al*), 39

Nuclear c-myc protein, maturation, and cell-cycle status of human haemopoietic cells (BAINS *et al*), 293

Parasitaemia, malarial, in Thai patients, reduced erythrocyte survival following clearance of (LOOAREESUWAN *et al*), 473
Platelet antibodies, electroblotting and immunohistochemical staining for identification of (ROCK *et al*), 437
Platelet-sequestration, splenic, following routine blood transfusion is reduced by filtered/washed blood products (BAREFORD *et al*), 177
Platelets, human blood, room temperature hyperaggregation of (TRENCHARD & COHEN), 248
Polycythaemia in young people: an analysis of 58 cases diagnosed before 40 years (NAJEAN *et al*), 285
Polycythaemia, primary proliferative, results in: erythropoietic colonies in a serum-free system (ERIDANI *et al*), 387
Pyruvate kinase deficiency, red cell 3-phosphoglycerate level as a diagnostic aid in (LESTAS *et al*), 485

Quinine- and quinidine-induced platelet antibodies can react with GPIIb/IIIa (CHRISTIE *et al*), 213

Red cell survival data for *in vivo* compatibility testing, interpretation of: a normal value study (BENTLEY *et al*), 241

Sialoglycoproteins, abnormal β-related erythrocyte, normal membrane function of (REID *et al*), 467
Splenic blood flow and intrasplenic platelet kinetics in relation to spleen volume (WADENVIK *et al*), 181
Splenomegaly syndrome, familial, with reduced circulating T helper cells and splenic germinal centre hypoplasia (MCKINLEY *et al*), 393
Systemic lupus erythematosus, platelet antibodies in (KAPLAN *et al*), 89

T cells, elimination of, from human peripheral blood and bone marrow using a cocktail of three anti-T cell immunotoxins (KATZ *et al*), 407
T cell leukaemias, rearrangements correlated with haematological phenotype in: α, β and γ T-cell receptor genes (FORONI *et al*), 307
T-cell lymphoma in a haemophiliac positive for antibody to HIV (HOWARD & MCVERRY), 115
Thalassaemia-β, in Campania: DNA polymorphism analysis in β^A and β^{thal} chromosomes and its usefulness in prenatal diagnosis (CARESTIA *et al*), 231
Thalassaemia, Dutch β^o-, the 12·6 kilobase DNA deletion in (GILMAN), 369
Thalassaemia intermedia, a simple index for initiating transfusion treatment in (SBYRAKIS *et al*), 479
Thrombocythaemia, results in: erythropoietic colonies in a serum-free system (ERIDANI *et al*), 387
Thrombophilia, familial elevation of plasma histidine-rich glycoprotein in a family with (ENGESSER *et al*), 355
Thromboplastin and oral anticoagulant control (POLLER), 116
Total body irradiation and bone marrow transplantation during childhood and adolescence, effect on growth and endocrine function (LEIPER *et al*), 419

von Willebrand's disease, severe forms of, absence of functional activity of tissue plasminogen activator in patients with (JEANNEAU *et al*), 79
von Willebrand's disease, type IIB, presenting as thrombocytopenia during pregnancy (GILES *et al*), 349
von Willebrand factor from human endothelial cells, an *in vitro* model for the study of acute release of (BOOTH *et al*), 71
von Willebrand factor, human, *in vitro* multimerization of, from its subunits (RAND *et al*), 433
von Willebrand factor, the release of, from human endothelial cells, interleukin 1 or endotoxin increases (SCHORER *et al*), 193
